DHFL Pramerica Credit Opportunities Fund

(An Open Ended Income Scheme)

Why invest in DHFL Pramerica Credit Opportunities Fund?

The DHFL Pramerica Credit Opportunities Fund is an accrual fund that invests in a portfolio of securities with a relatively high accrual. The fund predominantly invests in AA/A and equivalents rated papers.

Sources of Value Addition

- **Carry/Coupon accrual:** Overall return on the fund would be driven primarily by higher absolute accruals / 'carry'
- **Roll-down Effect:** The fund also benefits from a curve roll-down effect. Given the steepness of the AA rated credit curve in the 1-3 year segment, the fund is likely to benefit from this roll-down, even in the absence of any rate cuts.
- **Yield Decline/Rate cuts:** Capital appreciation can also arise from potential softening in yields on the back of improving macro economic factors.
- **Play on credit upcycle:** As the economic recovery picks up, entities in the A and AA rated space could enjoy positive rating migration; which can lead to price appreciation.
